

NT-2070

Northtech Double Spindle Shaper

Fixed table model
Two spindle configuration
Table area 61" x 37-4/5" (1550 x 960mm)
7.5 HP motor x 2
Foot spindle lock
Foot spindle brake
Reversible spindle
Magnetic controls protection with voltage transformer
Precision matched MK5 tapered spindle

TABLE:

The massive shaper table surface is made from high quality cast iron, rib reinforced for maximum table flatness and durability. Table surface is precision ground and polished, allowing minimal friction.

FOOT SPINDLE BRAKE:

Foot treadle plate provides instant spindle braking after power has been shut off.

FOOT SPINDLE LOCK:

The spindle is foot treadle locked for convenient cutter and spindle changeover.

FENCE (Optional)

2070 series can be fitted with a precision cast iron and aluminum fence to perform independent spindle shaping operations.

Quick Change Spindle Speed

The spindle is driven with four-speed pulley, for spindle speeds of 3000, 4500, 7500 and 10,000 RPM. Change of speed is fast and easily made by simply loosening one locking lever and shifting the belt to the required speed.
