Automatic Stair Trencher

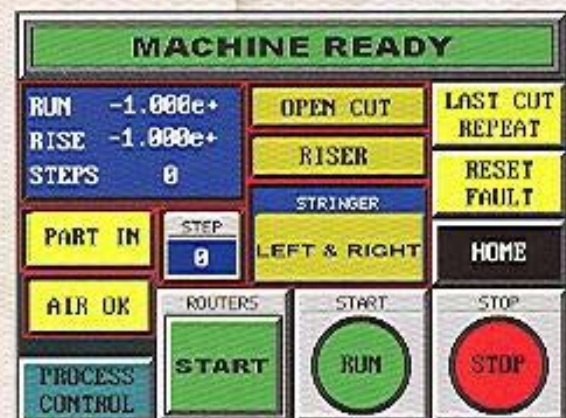

type CSR-700

Our heavy duty fully automatic **CSR-700** Stair Trencher used for box stair construction is design to be used with no setup time. The Touch Screen makes the set up a breeze. Simply enter the rise, run and number of steps, insert the board and press the Start button. As the machine takes over two high-speed router motors simultaneously rout both left and right hand stringers. It will also automatically index the material proper distance, and appropriate number of treads.

- Max. size of string board 12" x 2"
- Tread thickness 1" to 2"
- Router Motors 2 x 3 HP
- Tool Shank diameter 1/2"
- Max number of steps 50
- Plunging heads
- Rise x Run range 5" x 7" to 9" x 14"
- No riser: Bolt on fixture
- Weight 3720 lbs.

Operator Interface for easy set-up.
