Heavy duty 6-roll cast iron pressure section

Automatic Lubrication System for chain feed

## Summit Industrial SRS-355 Straight Line Rip Saw

If you are looking for a quick and easy way to improve your plant's efficiency, a Summit Industrial SRS-355 Straight Line Rip Saw is the answer. You will no longer need to run your rip cuts through a jointer to get a glue joint edge. Combine your table saw ripping and jointing operation into one glue line Straight Line Rip Saw, saving time, money and lots of extra effort.

### Check these features:

The Summit Industrial SRS-355 Straight Line Rip Saw comes with a precision ground cast iron table, precision one piece cast iron chain with replaceable plastic inserts in the cutting line, and cast iron pressure section with 6 wear resistant, spring loaded steel feed rolls to assure a vibration free, smooth, consistent glue line cut. The powerful 15 HP motor is just what is needed to cut through hardwoods all the way up to a 4-5/8" thickness cutting capacity. Combine this with the 2 HP infinitely variable speed from 36 to 146 FPM to fine tune to your exact cutting needs.

Arbor motor	15 HP
Feed motor	2 HP
Voltage	230/460/60/3
Feed speed	36 to 146 FPM
Thickness capacity	4-5/8"
Saw blade diameter	12" to 14"
Arbor diameter	1"
Arbor RPM	4500 RPM
Distance between saw and column	18-1/8"
Holddown rollers	6
Table area	35" x 67"
Dust outlet	4"
Net Weight	2200#
